The San Francisco Argonaut is a brilliant exponent of right and justice.

PORTER will soon be in Tombstone. He will be too early and too late.

PORTER and Davis recently treated all hands on "jaw-bone," up in Mohave county.

FRANK PIXLEY is running amuck through the ranks of the Republican party of Arizona.

BLACKBURN says little, but he makes up in hard work, and always selects the strongest men.

An honest Democrat cannot win when opposed to a dishonest Republican, according to our adversaries.

REPUBLICAN candidates, resident of Tombstone, are desperately trying to cut each other's political throats.

COMBINATIONS are exercising a good many Republican candidates. The Convention is as far as any of them will get.

It speaks well for the Democratic ticket, when its adversaries can find but one accusation to fling against it—that it is too honest.

MOSES and Harwood are fighting, in the Republican back yard, over the Recordership. It is a safe proposition that Colp will steal the bone of contention.

THE issue is made by the Republicans of Cochise county—"shall an honest Democrat win or not?" The Democracy will contentedly accept success or defeat upon such an issue.

THE first bill restricting Chinese immigration was passed by the votes of Democrats and vetoed by a Republican president. The last bill was jammed down the throats of both the Republicans and their president, by Democratic strength and the force of public opinion. And yet the Republican party asks credit for all this.

THE Phoenix Herald says that Oury should not be chosen by the people because he is honest. Republican unanimity in advocacy of dishonesty as a political necessity is peculiarly interesting, and suggestive of Star Route and other Republican thieving. If either Babcock or Belknap were in Arizona, they would undoubtedly receive the solid support of the Republican party.

Honest Democracy.

Our evening contemporary is engaged in an effort to show that the Democratic ticket is not only weak but unsatisfactory to Democrats. This action, on the part of a Republican journal, is to be expected, under the old adage that "all things are legitimate in politics." The proposition advanced, however, that the candidates chosen by the Democratic convention are too honest to win, is novel in its nature and a somersault in logic. It is a natural assumption that the people prefer honest officials, but, from a Republican standpoint, it would seem that the less honest a man is the better chance he has to win. The latter proposition being an idea of our adversaries, it is safe to expect that the nominees of the approaching Republican convention will not be characterized by honesty. It becomes a matter of speculation then, as to what qualifications are considered by the Republican bosses, as essential to political success, and the subject requires but little thought. The history of the Republican party, during the last nine years, national and local, chronicles but little else than official corruption, nepotism, broken promises and the fostering of capital at the expense of labor. We do not dispute the fact that the party was at one time a great party, but it has long since outlived its usefulness, and been corrupted by the manipulation of its ambitious leaders, into an organization solely for the benefit of a few jackals, who have for years and are now snarling over dead issues, and gorging themselves at the expense of the people and to the disgrace of the government. The Republican party is run by machinery—not ideas. It derives its sustenance from spoils, and keeps alive by an arbitrary use of power derived from those spoils. It coerces or buys the poor—and truckles to the rich. As declared by Frank Pixley, in the Argonaut, "it has degenerated, it has no longer a high and honorable purpose to achieve; its most influential and active leaders are men who make of politics a profession, who seek offices for the money that is in them, or because of the opportunity for plunder." And Pixley has ever been a Republican, and was a member of the machine convention which nominated Estee as the Republican candidate for Governor of California. His last expression, above quoted, is significant when applied to the utterances of the Republican press of Arizona—"the Democratic candidates of Cochise county cannot win, because they are honest." Truly, the Republicans of this Territory are good disciples of the rules laid down by the leaders of the whole party, especially those of Cochise county. "Within the Republican party there has been organized a ring of professional politicians, who make of politics a money-getting industry," says the Argonaut. "Democratic candidates are too honest to win," asserts our contemporary. Gladly the EPITAPH admits all this, as indisputable. The Democracy of Cochise county stands upon its honesty, leaving to the Republicans their preferred dishonesty. Let the people choose.

FRANK PIXLEY, a leading Republican of California, repudiates Estee, the nominee of his party for Governor of that state, because his nomination was secured by fraudulent means. Zabriskie, a Republican leader in Arizona, denies Porter, the candidate for delegate to Congress, for the reason that his nomination was the result of a "corrupt bargain." It is gratifying to know that the "civil service assessment" party, can boast of a few good men.

THE Legislature itself can only deal with the census fraud. The acts of de facto legislators are legal, and all acts of an Arizona Legislature are deemed to be confirmed by Congress, unless rejected by that body. Any rejection must come within two years after the passage of an act. The fraud can be beaten, if a sufficient number of the coming legislators can be got to vote one way.

THE Los Angeles Herald comes to us enlarged, and otherwise improved in appearance. Outside of San Francisco, it is equal in make-up and ability, to any paper on the Pacific slope.

PORTER'S success will be a rebuke to the administration. His defeat will constitute its defense.

ALL good Democrats should vote their tickets as they take their whisky—straight.

THE Cochise county Republican slate is badly shattered.

ZABRISKIE is the boomerang of Arizona Republicans.

THE CANDIDATES.

The candidates of the Democracy of Cochise county are before the people, who are to judge of their qualifications for the offices they desire to represent. It is always difficult to make up a ticket, the whole of which will be perfect, but the Democratic convention has been eminently wise in its choice of men, combining, in every instance, fitness and popularity, with integrity and conscientiousness. The legislative representation is composed of responsible men who are known to have the interests of the people at heart, who are posted as to their needs, and whose business qualifications insure no action without calm deliberation. The candidate for sheriff possesses, in a rare degree, all the qualifications necessary in an executive officer. He has judgment, is brave, determined, conscientious, energetic and can never be influenced against what he conceives to be his duty. His reputation in business circles is unsurpassed, and his record, as a man, without a flaw. Larkin W. Carr will do his duty without flinching, and do it well. Ben Goodrich will make a good Treasurer—there could be no better choice. None can dispute his fitness, and his past and present irreproachable life is an absolute guarantee that he will administer the duties of his office honorably and faithfully. Al. Jones received a better endorsement than we can give him, in his nomination by acclamation—a nomination that came to him spontaneously, owing to his past conduct of the same office he now aspires to fill for the second time. The selection for District Attorney, Marcus A. Smith, was a wise one. He is a lawyer of ability, a gentleman of honor and an industrious worker. B. L. Peel is most worthy of the office of Probate Judge, owing to his legal training, his fine sense of honor and the steadiness of his habits. Pat Holland is so sure of election, that it is almost needless to refer to him. He will do his duty well as Coroner. The choice for Public Administrator is a wise one, Alexis Freeman being a gentleman whose honesty is beyond question, whose ability is first-class, and who, by special training, is peculiarly fitted for the office. Those chosen by the Convention for supervisors are too well known throughout the county to need special endorsement. Their qualifications are pre-eminent, their characters beyond reproach. The convention especially displayed wisdom in listening to the claims of various localities. Every section of the county has received consideration in representation. Altogether the ticket is an exceptionally strong one.

HONESTY.

The assertion of the Republican press that the Democratic ticket of Cochise is "too honest to win," is proving to be of much service in materially adding to the strength of that ticket. Not only Democrats, but those Republicans who desire a pure administration of governmental affairs, have joined hands in a pledge to work for the "honest ticket." Leading Republicans, resident of Tombstone, are daily heard pronouncing in favor of the Democratic candidate for the office of Sheriff, because they know him to be steady in his habits, responsible, efficient and brave. His position in the county, as a leading business man, offers every assurance of a proper conduct of the duties of the office, and his past career guarantees an absence of political trickery. It is the same with the candidates for the office of supervisor. They are all known to be men of probity, careful business habits, fine executive ability and splendid credit. Mr. Jones, candidate for the Recordership, will poll a solid Democratic and large Republican vote. He has been honest in the administration of his office hitherto, and, through that honesty will be retained by the people for a second term. So it is, from one end to the other of the ticket—honesty and ability. In fact the only accusation so far made against the Democratic nominees, is that they are too honest, and the people will rise in their might, at the polls, and defend them upon that basis. Honesty is a pretty good banner to march under.

TOM FIRCH is anti-railroad and anti Grand Central out of pure cussedness. He has a habit of knocking his head against stone walls, just to be odd. He wouldn't be half the fellow he is if he acted like a sane man.

THE census fraud will cut a figure in politics for a long time to come. Those who conceived and condoned the outrage may consider themselves "dead ducks," until the next generation.
